Lights	G
Miscellaneous	NG

Hello John & Mary,

Everything for the most part is OK! We did find a few things that may be a concern.

- small area of mold found in the 1st floor bathroom off of the pool deck
- water condensation build up in several of your windows that face South. Both 1st floor and 2nd Floor

UPDATES - Gates should be working this week finally - will follow up. Vinny comes back this Sunday morning to finish off some electrical work that was part of his scope of work.
