

11.3.25 REPORT

Thursday, November 6, 2025 6:44 AM

Hello Irvine & Elaine,

As a reminder - ALL PICTURE MEDIA will be available through a shared link.

Today I ran into Bryce when I arrived who informed me of a new dead tree. He will go ahead and get it taken care off. The alarm vendor was here also and everything is finally working 100% with it. Your smoke detectors are beeping due to low batteries which we will have switched out next week. We are shopping a dishwasher for you and still have to get an AC vendor out to the gym AC unit.

I will leave the list of items below as a reminder to keep track of pending items.

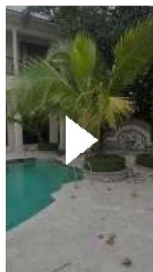

1. Pool rusted furniture needs removal. DONE!
2. Window seal - caulking needed in exterior windows
3. AC - Gym room needs service.

Thank you!
